Diagnostics — More information about the performance of your application. These numbers don't [directly affect](#) the Performance score.

● Keep request counts low and transfer sizes small — 59 requests • 711 KB

Passed audits (23)

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

Additional items to manually check (11) — These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#).

Progressive Web App

These checks validate the aspects of a Progressive Web App. [Learn more.](#)

Fast and reliable

- Page load is fast enough on mobile networks 
- Current page responds with a 200 when offline 
- start_url responds with a 200 when offline 

Installable

- Uses HTTPS 
- Registers a service worker that controls page and start_url 
- Web app manifest meets the installability requirements 

PWA Optimized

- Redirects HTTP traffic to HTTPS 
- Configured for a custom splash screen 
- Sets a theme color for the address bar. 
- ▲ Content is not sized correctly for the viewport 
The viewport size of 458px does not match the window size of 412px.
- Has a <meta name="viewport"> tag with width or initial-scale 
- Contains some content when JavaScript is not available 
- Provides a valid apple-touch-icon 

Additional items to manually check (3) — These checks are required by the baseline [PWA Checklist](#) but are not automatically checked by Lighthouse. They do not affect your score but it's important that you verify them manually.
